

# Planning for our future

**Bowmer + Kirkland (B+K) has been selected by the Department for Education (DfE) as the main contractor on plans to redevelop Highams Park School.**

The current layout and building stock are inefficient and energy intensive. B+K is redesigning large parts of Highams Park School to; better accommodate students and staff, reduce costs, increase useable external space and provide improved facilities for the local community to share.

The project team has been working closely with the school and officers at Waltham Forest Council in preparation of the plans and would like to invite the local community to a public exhibition and to share your views.
